

GET IN THE GAME!

What GAME?

We are talking about the GAME of public education. If you are a new educator who has entered the profession over the last five years and find yourself asking questions like:

- How do I find a support network of my peers?
- My School of Education did not prepare me for everything I need to be successful in the classroom – where can I gain relevant professional development to help me succeed in my career?
- Where can I find programs to help me pay my student debt?
- Where can I use my voice to work to improve public education and the education profession?

GAME is for you!

The Georgia Association of Millennial Educators (GAME) is an organization for early career educators focused on:

- Early Career Educator social events for peer support
- Professional Development, online communities, and mentoring programs targeted for your needs
- Community service programs
- Degrees Not Debt initiative to help reduce student debt for educators
- Advocating for the education profession and a quality public education for all Georgia Students

GAME is a program of the Georgia Association of Educators and the National Education Association. If you are a GAE/NEA member, you are automatically eligible to join GAME at no extra cost to you. So, Get in the Game!
